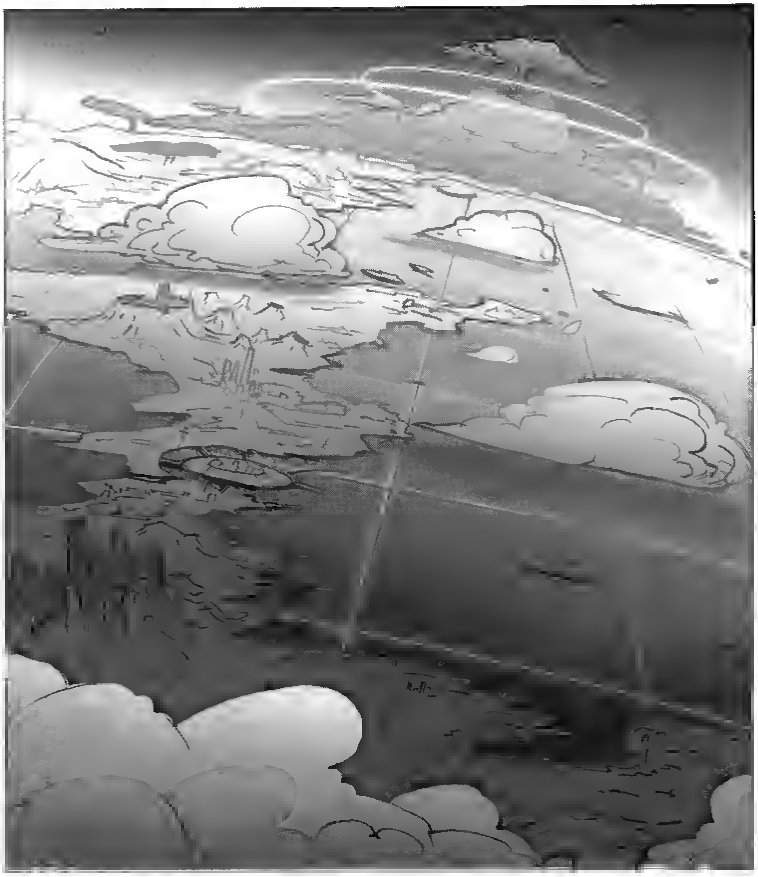
To Be continued.....



Hello world,

We found this series some time ago and thought it was pretty cool, but we don't have a dedicated *translator* or *letterer,* so we don't have the means to actually pick it up.

However, we decided to at least get one chapter out there in the hopes that someone else might be interested in doing it. *If you want raws,* we're happy to provide them! Our cleaner is also potentially interested in helping.

Alternatively, if you want to work with us on it, we're also down for that. In any case, hope you enjoyed the chapter. You can contact us at *#TSP@irc.irchighway.net.*

Cheers
